

FROM AMERI-CORPS Team Leader

Dear Scott,

6/19/98

I just wanted to drop a line to say thanks for all your work during the team's stay in Florida.

Without your dedication, organization and skill Blue 7 would have never been able to accomplish half of what we did. The team really respected your opinion and learned a great deal about construction and home repair. It meant a lot that you took as much time as you could to teach as the projects unfolded to everyone on the team. We all feel pretty good about the project and great about our involvement with CCA and you. Thanks for a wonderful experience.

On a more personal note I want to thank you for being so accomodating and patient with me. I really appreciated our sit downs and planning sessions (as much as we could any way) and would love to work with you again. I'll be up in Boston until @ mid-January so give me a call if anything comes up. (617) 965-9897. - JOSH
ps If there's anything I can do to help, let me know. GOOD LUCK.
